'Perspectives in Child Development: Relationship between internal and external worlds' according to Donald Winnicott

ONE-DAY WORKSHOP

Areas covered in this workshop are:

Winnicott's theory of psychological development, maternal functions, the holding and the facilitating environments, the role of the transitional object, the transformation from absolute dependency toward independence, development of the three capacities: isolation, concern and play, and therapeutic implications.

SPEAKERS:

Dr Jennifer Johns, Psychoanalyst, Past Chairman of the Winnicott Trust

Tessa Dalley, Child and Adolescent Psychotherapist
